All product and price information is correct at the time of publication. However, details may change, so for the latest updates — including new products or specification changes — please visit www.stelsep.com, where you can download the newest version of this list, as well as brochures and manuals in our Support section. Significant updates will always be communicated directly.

While every effort has been made to ensure the accuracy of this document, errors may occasionally occur. STERLING Separation, Inc. reserves the right to review and, if necessary, refuse orders if any incorrect information is identified. We accept no liability for costs arising from errors in this document, or from its misuse. If you are uncertain about any price or specification, please contact us directly for confirmation.

Prices are shown in USD (\$) and exclude sales tax and carriage. Items shown as POA are not held in US stock; they are priced on application and shipped from our UK warehouse, delivered to your door within 5–7 days.

About Us

STERLING Separation is a UK/American based leader in condensate management, delivering innovative oil/water separation, filtration, and condensate drainage solutions for industrial compressed air systems worldwide.

Our reputation is built on three core pillars: uncompromising reliability, technical expertise, and a relentless commitment to customer support.

With decades of engineering experience, STERLING Separation combines proven performance with forward-thinking product design, ensuring regulatory compliance and minimizing operational costs for our customers. Every solution is backed by dedicated aftersales support and a deep understanding of the unique challenges facing OEMs, distributors, and end users in the compressed air industry.

We are proud to serve customers all over the globe, partnering with some of the world's most respected brands. Our mission is simple: to provide the most robust, cost-effective, and easy-to-service condensate management products on the market.

Meet the STERLING Team

Mike Amphlett PRESIDENT / OWNER

Mike has held senior industry positions since 1994 in the UK and abroad. He focuses on business development and the internal structures that allow STERLING to deliver consistently excellent service.

Dave Amphlett VICE PRESIDENT / GROUP BRAND MANAGER

Dave leads brand and marketing across the STERLING group, keeping our message consistent on both sides of the Atlantic and making sure the technical detail our customers need is easy to find.

SECTION 01

CSR Series Oil Water Separators

Compact, serviceable separators covering systems from 75 cfm to 7000 cfm — now named by system power rating.

The CSR Series

The **CSR Series** is the STELSEP range of Oil Water Separators, named by capacity for easier selection. Engineered for uncompromising efficiency and reliability, the range helps customers stay compliant with the latest environmental regulations. By blending proven principles with innovative features and robust quality, STELSEP delivers solutions that not only meet but often exceed the demands of both customers and the wider market.

CS75i

The CS75i stands as the industry's most compact and cost effective serviceable oil/water separator, with a proven track record in thousands of installations. It's the ideal choice for systems up to 75 cfm, offering exceptional performance in a remarkably small footprint.

CSR150 to CSR3000

Our core CSR range is purpose-built for flexibility and ease of use in real-world conditions. Each model is designed for straightforward selection, installation, and maintenance, featuring clear time in service indication and adaptable configurations to maximize available space — even in the most constrained plant rooms. Five models cover systems from 150 cfm up to 3000 cfm, so there's a solution for every application.

CS100IBC & CS200IBC

For large scale and demanding environments, the CS100IBC and CS200IBC set the benchmark for efficiency and service life. These IBC based separators harness the same advanced technology as our core range, providing an answer to high volume condensate challenges with up to 16,000 hours between services. Available in two sizes, they are the go to choice for installations from 3500 cfm to 7000 cfm.

CSR Separator Specifications

MODEL	CAPACITY CFM (M ³ /MIN)	MAX SERVICE LIFE (HRS)	HEIGHT (IN)	WIDTH (IN)	DEPTH (IN)	HEIGHT TO OUTLET C/L (IN)	WEIGHT (LB)	SERVICE KIT

	CSR450-AF	STELSEP separator — 450 CFM — active filter	1,413.00
1000	CSR1000	STELSEP separator — 1000 CFM	1,863.00
	CSR1000-AF	STELSEP separator — 1000 CFM — active filter	2,192.40
2000	CSR2000	STELSEP separator — 2×CSR1000 + CSEQ3	4,158.00
	CSR2000-AF	STELSEP separator — 2×CSR1000AF + CSEQ3	4,824.00
3000	CSR3000	STELSEP separator — 3×CSR1000 + CSEQ3	6,021.00
	CSR3000-AF	STELSEP separator — 3×CSR1000AF + CSEQ3	7,011.00
3500	CS100IBC	Extended service (16000 hours) IBC separator, up to 3500 CFM	11,610.00
	CS100IBC/AF	Extended service IBC separator, up to 3500 CFM — polyglycol service	13,320.00
7000	CS200IBC	Extended service (16000 hours) IBC separator, up to 7000 CFM	16,110.00
	CS200IBC/AF	Extended service IBC separator, up to 7000 CFM — polyglycol service	18,846.00

Prices are shown in USD (\$) and exclude sales tax and carriage. AF models are supplied for polyglycol (PAG) service — enhanced with a non-hazardous, biological treatment for polyglycol and other emulsified oils. CSR2000 and CSR3000 are supplied as multiple CSR1000 units with a CSEQ3 condensate flow splitter. Items shown as POA are not held in US stock; they are priced on application and shipped from our UK warehouse, delivered to your door within 5–7 days.

Separator Accessories

A separator is only as good as the components that support it. STELSEP accessories are designed to enhance performance and ensure complete compliance with environmental regulations. Every accessory is engineered to integrate seamlessly with our separators.

Unlike generic alternatives, STELSEP accessories are purpose-built for maximum efficiency, guaranteeing consistent oil-water separation and trouble-free operation.

By choosing STELSEP accessories, customers safeguard the long-term reliability of their separator investment, ensuring that performance on day one is performance that lasts.

STELSEP CODE	DESCRIPTION	LIST \$
CSEQ3	Flow divider to share inlet flow into 2 or 3 equal feeds	509.40
IBC INLET	Inlet diffuser for CS100IBC (3500 cfm) & CS200IBC (7000 cfm)	1,500.00
3500 PIPEWORK	IBC pipework kit for CS100IBC (3500 cfm)	480.00
7000 PIPEWORK	IBC pipework kit for CS200IBC (7000 cfm)	740.00
CSR150 BIO-ACTIVE PACK	Bacteria reculture pack for CSR150-AF	250.00
CSR450 BIO-ACTIVE PACK	Bacteria reculture pack for CSR450-AF	350.00
CSR1000 BIO-ACTIVE PACK	Bacteria reculture pack for CSR1000-AF	525.00
CSR2000 BIO-ACTIVE PACK	Bacteria reculture pack for CSR2000-AF	790.00
CSR3000 BIO-ACTIVE PACK	Bacteria reculture pack for CSR3000-AF	980.00
CS100IBC BIO-ACTIVE PACK	Bacteria reculture pack for CS100IBC-AF (3500 cfm)	2,200.00
CS200IBC BIO-ACTIVE PACK	Bacteria reculture pack for CS200IBC-AF (7000 cfm)	3,300.00

Bio-active packs are for AF units only. The BIO-ACTIVE pack is the reculture charge for the AF (polyglycol) upgrade — a non-hazardous, biological treatment for polyglycol (PAG) and other emulsified oils. It is not required, and must not be used, on standard CS / CSR separators.

Service Kits

Market-Leading Design, Maximum Uptime

STELSEP's own brand of service kits are built on the same principles that make our oil water separators industry leaders: advanced technology, precision engineering, and ease of use. Each kit is designed around real-world servicing needs, cutting downtime while guaranteeing optimal performance.

Where others supply basic replacements, STELSEP delivers complete solutions. Our kits incorporate market-leading design features that make servicing faster, cleaner, and more reliable. Every component is tested for durability and compatibility.

By standardizing quality across the entire condensate management process, STELSEP service kits give customers a dependable, low-cost way to maintain peak efficiency and extend the life of their equipment.

Re-engineered for new, legacy and 3rd party ranges

With precision graded ISO14001 materials and premium bags. 4000 hours service life. No pre-soaking needed.

CS200IBCKAF	Service kit for CS200IBC/AF — polyglycol service	16,110.00

SECTION 02

Alternative Service Kits for Oil Water Separators

STELSEP service kits for third party separators feature our proprietary, progressive media blend for clean, long-lasting performance without the use of activated carbon or glass fiber, and with no pre soaking required. We've included service kits for the most popular brands, but if you don't see what you're looking for, simply contact us — our team is likely able to assist.

Every kit is engineered to match or exceed OEM performance, combining high-quality materials with precise design. The result is reliable servicing, reduced downtime, and substantial cost savings compared to manufacturer alternatives — without compromising on quality.

By consolidating supply through STERLING, customers gain access to market-leading service solutions across multiple brands, all backed by our expertise in condensate management.

STELSEP Drains

STELSEP drains are built with the same focus on reliability and efficiency as our separators. Compact and easy to install, they provide consistent condensate removal without the hassle of constant maintenance.

With only four models in the range, we've kept it simple: robust designs that work, day after day, protecting downstream equipment and ensuring smooth system operation.

PRODUCT	DESCRIPTION	LIST \$
TD15A	110 VAC timer control condensate drain 0.5-45 minutes. Quantities 1-4	136.08
ZL1300NPT	Zero loss drain 110 VAC 1300 cfm capacity at wet tank	881.28
MZL1000	1000 cfm 25 bar mechanical zero loss drain, strainer, valve & fittings	390.00
ZL5000	5000 cfm zero loss HD autodrain 3/4 bsp 110v	1,100.00

While every effort has been made to ensure the accuracy of this document, errors may occasionally occur. STERLING Separation, Inc. reserves the right to review and, if necessary, refuse orders if any incorrect information is identified. We accept no liability for costs arising from errors in this document, or from its misuse. If you are uncertain about any price or specification, please contact us directly for confirmation.

Laboratory Work & Training

Condensate Testing

STERLING operates a dedicated laboratory equipped with advanced instrumentation capable of detecting oil concentrations in water down to ± 1 part per million.

To conduct a test — whether for routine installation checks or as part of a pre-quote assessment — we require a representative sample of at least 500 ml of condensate, along with basic installation details where relevant. Please contact our sales team for further guidance.

Testing is offered at a flat rate of POA, which includes a detailed printed report.

Important: This service is provided for general customer support. While all tests are conducted and reported with professional care, STERLING is not a certified laboratory. If the results are intended for legal, regulatory, or official compliance purposes, you must obtain independent, accredited analysis elsewhere.

Training

With decades of hands-on experience in condensate management, the STERLING team delivers practical, real-world training tailored to your needs.

We provide courses covering both general condensate management and in-depth product-specific knowledge. A typical session, focused on key operational principles and best practices, lasts between 2–3 hours. Training is available on-site by appointment, for individuals or groups (sales, technical, or service teams). Content and delivery are customised to your requirements.

All training is provided free of charge.

Terms & Conditions

1. Application and Entire Agreement

These Terms and Conditions apply to all purchases of goods ("Goods") from STERLING Separation, Inc., registered in England and Wales (No. 05844056), registered office: 24 Longford Industrial Estate, Longford Road, Bridgtown, Cannock, WS11 0DG ("we", "us", "Supplier"). Acceptance of these Terms occurs when you accept our quotation, place an order, or accept delivery of the Goods — whichever is earliest. These Terms and any quotation constitute the entire agreement and override any other terms. No terms proposed by the Buyer override these Terms, unless expressly agreed in writing.

2. Interpretation

"Business day" means any day except Saturday, Sunday, or bank holidays in England and Wales. Section headings are for convenience only and do not affect interpretation. Singular includes plural and vice versa.

3. Goods

Goods are described in our sales documents, unless expressly changed in writing. You acknowledge you have not relied on any other statement or representation. We reserve the right to amend the Goods' specification to comply with legal or regulatory requirements.

4. Price & Payment

The price is set out in our current quotation or price list, or as otherwise agreed in writing. We may adjust prices due to factors beyond our control, with a minimum 30 days' notice. All increases will be communicated in advance. Discounts are at our discretion and must be confirmed in writing. Prices exclude packaging, transport, VAT, and any other taxes or charges, unless specified. Payment is due by the last calendar day of the month following invoice date, unless otherwise agreed in writing. Late payment may result in suspension of deliveries and interest charged at 5% above the Bank of England base rate. Payment is to be made in GBP unless otherwise agreed. All sums are payable without deduction, set-off, or withholding except as required by law.

5. Orders, Cancellation, and Alteration

Order details may change without notice. No offer to sell exists until expressly accepted. Quotations are valid for 30 days unless withdrawn earlier or extended in writing. Orders may be cancelled by either party prior to acceptance. Items made to order may incur a cancellation charge if production has started.

6. Delivery

Delivery is to the address stated in the quotation or as otherwise agreed. If no address is given, collection is required. Unless otherwise agreed, delivery can occur at any time between 8am–5pm. Failure to accept delivery may result in storage or redelivery charges and, after 10 business days, resale of Goods with you liable for any loss. All delivery dates are estimates and time is not of the essence. We are not liable for delays due to circumstances beyond our control. Goods may be delivered in instalments. Each instalment forms a separate contract.

7. Inspection and Acceptance of Goods

You must inspect Goods on delivery or collection. Any damages or shortages must be reported in writing within 48 hours of delivery. Returns will only be accepted for defective Goods and, if necessary, after inspection. Subject to compliance, we will repair, replace, or refund at our discretion. We accept no further liability for Goods if: you fail to notify us as required; Goods are used after such notice; defects arise from failure to follow instructions, normal wear and tear, misuse, alteration, negligence, or damage by you, your agents, or third parties. You bear the risk and cost of returning Goods. Acceptance is deemed on inspection or within five days after delivery, whichever is sooner.

Terms & Conditions (cont'd)

8. Risk and Title

Risk passes to you upon completion of delivery. Title passes only when full payment is received for all Goods and services supplied to you. Until title passes, you must: hold Goods on a fiduciary basis as our bailee; store Goods separately, keeping all identification intact; keep Goods in satisfactory condition, insured for their full value. We reserve the right to recover Goods at any time before title passes if payment is outstanding.

9. Termination

We may terminate any sale if: you breach these Terms materially; you become insolvent, enter liquidation, administration, or similar proceedings; you convene meetings or arrangements with creditors.

10. Limitation of Liability

Our total liability is limited to the price paid for the Goods. We are not liable for: indirect, special, or consequential loss; loss of profit, business, data, goodwill, or third-party claims; delay or failure caused by circumstances beyond our control; losses due to your breach of obligations; suitability or use of Goods for your purpose. Nothing excludes liability for death or personal injury caused by our negligence, or fraud.

11. Communications

All notices must be in writing and signed by an authorised party. Notices are deemed delivered: upon delivery by courier; upon successful fax or email transmission; five business days after posting by regular mail; or ten business days after airmail. Notices must be addressed to the most recently notified address or contact. All communications should be directed to sales@stelsep.com.

12. Data Protection

When providing Goods, we may process personal data of your employees. You are the data controller and we are the data processor under UK GDPR (as amended, extended, or replaced). We only process data as required to fulfil our obligations or as agreed, and do not retain personal data longer than necessary. We do not disclose data to third parties except as required for fulfilment, or by law. We maintain appropriate security measures as outlined in our Data Protection Policy (available on request). For any data queries or complaints, please contact sales@stelsep.com.

13. Force Majeure

Neither party is liable for failure or delay caused by circumstances beyond reasonable control, including industrial action, fire, flood, terrorism, war, or government intervention.

14. General

No waiver of any breach constitutes a waiver of any subsequent breach. If any term is held invalid or unenforceable, the remainder shall remain valid. This contract is governed by and construed according to the laws of England, with all disputes subject to the exclusive jurisdiction of the English courts.
